After being in business for over 20 years and filing over a million returns our service has the experience and expertise you need to navigate an audit or issue with the IRS or State Taxing Authority. Unlike other plans or products, we are available year-round at your local Sun Loan. Letters from the IRS or State can be confusing and overwhelming. Audit Pro can help with interpretation, guidance, and resolution. If a preparer or calculation error is made during the filing of your income tax return, you may be reimbursed for tax, penalties, and interest up to \$6,000.
